Professional Summary

Computer Science (Data Science) undergraduate with strong foundations in Python, Java, machine learning, and data analysis. Passionate about software development, problem-solving, and building innovative technology solutions.

Education

Rajeev Gandhi Memorial College of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering (Data Science)

2023 – 2027

CGPA: 8.1/10

Technical Skills

Programming Languages: Python, Java, C, SQL

Machine Learning: Machine Learning, Deep Learning, Natural Language Processing (NLP)

Libraries: Scikit-learn, Pandas, NumPy, Matplotlib

Tools: Git, GitHub, VS Code, Jupyter Notebook, Microsoft Excel (Basic)

Core Subjects: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems (DBMS), Operating Systems, Computer Networks, Cryptography and Network Security

Projects

Fuel Efficiency Classification using Machine Learning

21 Jan 2026 – 25 Feb 2026

- Developed a machine learning model using Python and Scikit-learn to classify vehicle fuel efficiency.
- Performed data preprocessing, feature engineering, and exploratory data analysis (EDA).
- Trained and evaluated Logistic Regression, Decision Tree, KNN, and Random Forest models using Accuracy, Precision, Recall, and F1-score.

Smart Dustbin Fill-Level Classification using Deep Learning

15 Feb 2026 – 05 Apr 2026

- Developed a ResNet18-based image classification model using PyTorch to classify dustbin fill levels into four categories.
- Applied image preprocessing, data augmentation, normalization, and transfer learning to improve model performance.
- Built an image prediction pipeline to classify uploaded images with confidence scores.

Internship

Infosys Springboard Virtual Internship 7.0 (Ongoing)

July 2026 – Present

- Currently participating in the Infosys Springboard Virtual Internship 7.0.
- Gaining hands-on experience in software development and industry-oriented technologies through guided learning modules and practical activities.

Certifications

- AI & Machine Learning Workshop – IIT Hyderabad
- Data Analysis with Python – Kaggle
- Soft Skills – NPTEL
- Business Intelligence and Analytics – NPTEL

Achievements

- Secured First Place in the AI & Machine Learning Workshop Assessment conducted at IIT Hyderabad among 200 participants.
- Built multiple end-to-end machine learning and AI projects using Python and Scikit-learn.
