Education

Rajeev Gandhi Memorial College of Engineering

2023 – 2027

B.Tech in Computer Science and Engineering (Data Science) | CGPA: 8.03/10

Andhra Pradesh, India

- Relevant Coursework: Data Structures & Algorithms, Linear Algebra, Probability & Statistics, Machine Learning, DBMS, Operating Systems

Projects

Cancer Treatment Recommendation using Machine Learning

- Developed a multi-class classification model using Decision Trees on a structured dataset with 15 clinical features.
- Performed train-test split and hyperparameter tuning to optimize model performance.
- Evaluated using Accuracy, Precision, Recall, and F1-score, achieving 95% test accuracy.
- Compared performance with alternative classification models to validate model selection.

Fuel Efficiency Classification

- Built and evaluated multiple classification models to predict vehicle fuel efficiency categories.
- Implemented Random Forest as the optimal model after comparative evaluation.
- Applied feature importance analysis to interpret contributing factors.
- Achieved 92% accuracy on held-out test data.

Technical Skills

Programming: Python, Java, C

Machine Learning: Scikit-learn, Decision Trees, Random Forest, Model Evaluation (Accuracy, Precision, Recall, F1-score), Feature Engineering

Data Analysis: NumPy, Pandas, Matplotlib

Databases: SQL (Basic), PostgreSQL

Tools: Git, VS Code, pgAdmin
